

GREMAC

Mobile Drum Screens

Electric drive,
available with petrol
or diesel generator
set (optional)

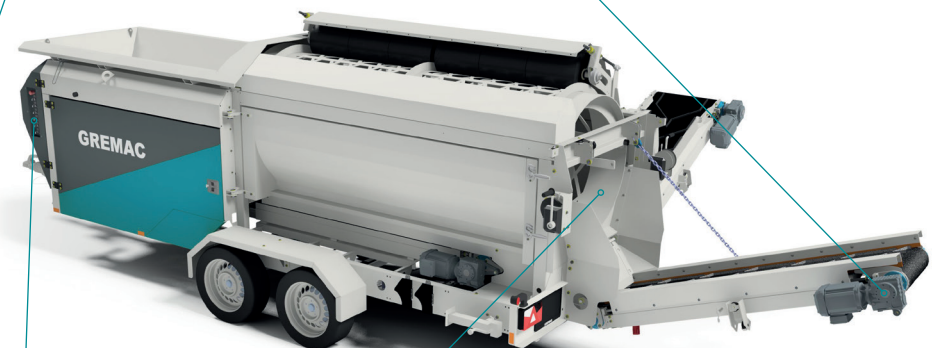

Electronic load-
sensing control
for a continuous
workflow

Galvanised hopper,
2,300 mm wide with
a drop-off height of
only 1,910 mm

Trailer with a
maximum weight
of 3,500 kg

Strong
electric-gear
motors

Powerful and
with a 3 meter
drum unique in its
class of up to
3.5 tons

No loss of
material due
to a one-piece
fines discharge
conveyor

Frame
and all structural
parts are galvanised
steel for a long
machine life

Crank
support winches
for secure
positioning

Control panel
optionally available
with remote
control unit

Easy to
change screen
mats

Up to
75 m³/h
screening
capacity

GREMAC

Mobile Drum Screens

GREMAC e2+

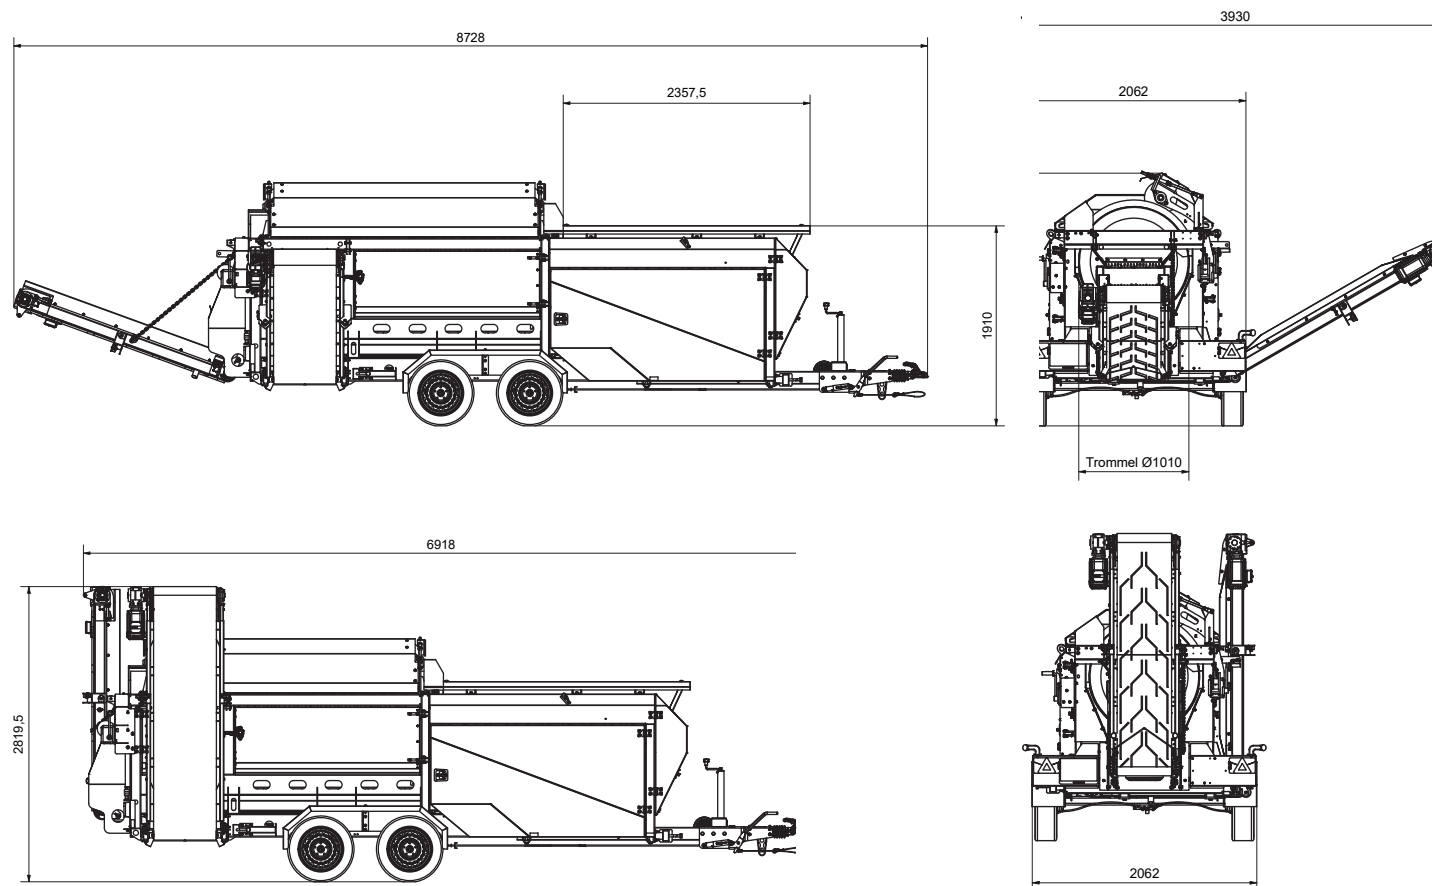

Whether excavated soil, stones, rubble or other screenable materials, the GREMAC e2+ masters all tasks with ease and unrivalled performance.

This is achieved through its 3 meter drum - unique in its class!

Options include remote control, separator grid and exchangeable screen mats. Added to the basic configuration, these make the e2+ a true allrounder and high performer in the 3.5-ton class.

Simple, robust, versatile – the GREMAC e2+

Up to 75 m³/h screening capacity
